## INDEPENDENT AND PROGRESSIVE

Mullin-Kille (associate of Baldwin ConSurvey Company), publisher of this directory, and world's largest independent publisher of city directories, is in no way connected with any national association, combination or directory "trust." Its policies are laid down with a view to serving the individual directory subscriber and the general public. It is a progressive company, constantly on the alert to improve its service.

The ABCD type of ConSurvey directory was originated by Robert Morton Baldwin and Heber Page. While many publishers have been content to rest on their laurels, issuing the same type directory used fifty years ago, the Mullin-Kille and Baldwin organizations have led the way to the production of an up-to-date ConSurvey directory to meet modern selling and credit conditions.

Newspapers, chambers of commerce, merchants' associations and individual business concerns are invited to write for particulars concerning this type of directory service. In the future, as in the past, Mullin-Kille and Baldwin ConSurvey directories will stand for the highest ideals in public service.

ROBERT MORTON BALDWIN

The information herein contained was taken by trained enumerators in a house-to-house canvass of the city and adjacent territory and checked with material supplied by employers. The publishers offer it as the most reliable information available but do not assume any responsibility for errors.

## FIVE DIVISIONS OF THE BOOK

The principal divisions of the Mullin-Kille and Baldwin directory contains the following information:

1. THE PREFACE contains historical and civic information with photographs of general interest.
2. THE BUYERS GUIDE and CLASSIFIED BUSINESS DIRECTORY SECTION contains display information concerning the leading business firms of the city, announcements of churches, clubs, lodges, associations and schools, and the names of all business firms, professional men and women and non-profit organizations, properly classified, with the names of distributors of national brands of merchandise.
3. THE NUMERICAL TELEPHONE DIRECTORY contains telephone numbers arranged in numerical sequence.

4. THE HOUSEHOLDERS' DIRECTORY AND STREET TELEPHONE GUIDE contains a complete directory of streets and avenues, properly located, gives the names of all householders, arranged as they come upon the streets and avenues, indicates ownership of property, and gives the telephone number of each house.

5. THE RESIDENT DIRECTORY AND COSMOPOLITAN TELEPHONE DIRECTORY contains most of the data concerning the individual. The wife's name is given in parentheses, and the number of dependents under 18 is shown as well as the ownership of homes. This is followed by position, place of employment, home address and accessible telephone numbers.

# Explanation

All persons over 18 years of age living in the community are listed.

The wife's name is shown in parentheses after the husband's as follows: Smith Robt R (Mary L.)

The number of children under eighteen years of age is shown after the wife's name as follows: Smith Robt R (Mary L) 3.

In the resident directory home ownership is designated by ® as follows: Smith Robt R (Mary L) 3 ®. Renters are shown by the omission of the ®.

In the householders' directory ownership is shown by the same designation as follows: 210 Main Smith R R ®.

In the case of a natural widow this fact is shown with the name of the deceased husband in parentheses, whenever possible, as follows: Smith Mary L (wid Robt R.)

The occupation and place of employment are shown as follows: Smith Robt R (Mary L) clk Hub Clo Co.

The residence of each person is shown by "h" denoting householder or head of a family and by "r" denoting other persons in the home. Only one person in each home is listed with an "h". Therefore, a circular mailed to each householder marked "h" will reach every home in the city.

Married women engaged in some responsible occupation are listed individually in addition to the regular listing with the husband as follows: Smith Mary L (Mrs Robt R) bkpr Hub Clo Co r 210 Main.

The words street and avenue are understood.

Persons living outside the city limits and receiving their mail in the country are marked RD.

Telephone numbers are designated in the resident directory at the end of the line with the designation △ as follows: Smith Robt R (Mary L) 3 ® clk Hub Clo Co h 210 Main △498.

In the householders' directory the telephone number of each house is given at the end of the line as follows: 210 Main Smith R R ®—△498. In this division of the book each street is listed alphabetically and each house on the street is listed according to number. All street intersections are shown at the proper places with the names of the cross streets. In case there is no telephone shown the nearest telephone on the street may be found.

In the numerical telephone directory the telephone numbers are listed in numerical order.

In the business directory and buyers' guide the various business and professional firms are arranged according to their line of business and merchandise sold. Nationally advertised brands are designated with a ★. For example under the heading automobiles will be found the following classifications: ★FORD—Jones Mtr Co 110 Elm. The buyers' guide carries the printed message of the city's leading business and professional firms.

This directory contains all the regular departments of the modern city directory and many features used by no other publisher. It shows the exact population of the city and environs at the present time.

# Winslow, Arizona

By WINSLOW CHAMBER OF COMMERCE  
and  
CITY OF WINSLOW, ARIZ.

The City of Winslow is known as the City of Good Will offering protection, refuge, hospitality and kindness to all those who stop within the city gates.

The Winslow police department has adopted the symbol of Tawa to express its message of good will. Each member of the police department wears as a shoulder patch this symbol of Tawa, the Sun-God, so that everyone may approach these

officers for information, assistance, protection or just a friendly welcome.

The same spirit of friendship and good will will be found at the office of the Chamber of Commerce.

To the traveler, Navajo County in Northern Arizona offers a score of attractions, and is the gateway to some of the most extraordinary wonders of the world. One of the 14

STREET SCENE, WINSLOW, ARIZONA

### MONUMENT VALLEY, NAVAJO, ARIZONA

counties of the state, with an area of 9,899 square miles, it extends from the Utah State line on the North more than 225 miles southward and within its boundaries are found natural wonders and scenic grandeur seldom embraced in one area.

The word "Navajo" originated from the Rio Grande Pueblo Indian term meaning "large area of tillable land". The Navajo Country is the largest Indian Reservation in the United States, covering an area of 25,000 square miles in northeastern Arizona, Utah, Colorado and New Mexico.

Winslow, with an altitude of 4,849.52 feet, is the largest city in Navajo County. Winslow was settled in 1880 and was named after Gen. Edward F. Winslow, president of the St. Louis and San Francisco Railroad.

The first settler is said to have been "Doc" F. C. Demerest, hotel man, who lived and did business for some time in a tent in 1880. Shortly after this date, J. H. Breed, who for

many years had a trading post and general store at sunset Crossing of the Little Colorado River, moved down and built the first stone building. The postoffice was established January 10, 1882.

The most prominent industries in Navajo County are transportation, lumbering, livestock and agriculture. Winslow is noted for its many religious activities with 15 churches, seven schools, two hospitals, one clinic, three lumbering companies and a planing mill, plus one of the most healthful and invigorating climates in the southwest.

U. S. Highway 66 passes through Winslow and many of the world renowned points of interest may be reached by connecting highways. Twenty-two miles west of Winslow and seven miles south is located Meteor Crater. This huge crater is a bowl-shaped hole 4,150 feet in diameter and 600 feet deep.

The most spectacular manifestations of petrified wood in the world as well as the most colorful portions of the Painted Desert are included

AERIAL VIEW WINSLOW, ARIZONA

in the Petrified Forest National Monument, east of Winslow. Unique in its vivid and varied colors, this forest has attracted the interest of visitors from all parts of the world. Six separate forests within the boundaries of the monument and many regions containing fossil remains of animal life and plant life are all of great popular and scientific interest. The beautifully painted and carved badlands, formed where the colored shales have been eroded into steep ravines, rounded knolls, turreted ridges and flat mesas, no doubt suggested to the early Spanish explorers the appropriate name "El Pintado Desierto" or Painted Desert. There is a nearer view, only on a smaller scale, 4 miles east and 13 miles north of Winslow, just off U. S. Highway 66.

North of Winslow is the home of the Hopi Indians, a highly civilized race, who dwell on virtually impregnable mesas and are famous over the entire world for their sacred Snake Dance, baskets and pottery. There are nine principal towns, three each on three mesas overlooking the Na-

vajo country. In even years the Snake Dance is held at Shipaulovi, Shungopovi and Hotevilla. In odd years at Mishongnovi and Walpi. Specific dates for this spectacular ceremony are determined by the priests of the tribe, generally late in August.

Stretching across the entire northern portion of Navajo County is the Navajo Indian Reservation, where the famous Navajo blanket is woven.

Actually, more full-blooded Indians are to be found in Arizona, still living in their aboriginal manner and in their native haunts, than in any other state. In Navajoland are many marvels—Canyon de Chelly, Monument Valley, Rainbow Bridge, and Canyon del Muerto.

Some of the most magnificent scenery in Arizona, yet little known to the hurried traveler, is the Mogollon Rim drive. Up Pine-Payson way this great escarpment is located in the Tonto and Sitgreaves National Forest. The word is Spanish, pronounced (mogoyown). The Rim is a

**WINSLOW MUNICIPAL AIRPORT**

Photo Courtesy of Santa Fe Railway

**YARDS OF SANTA FE RAILROAD**

great precipice 2,000 feet high in places and extends for more than one hundred miles east and west and overlooks the vast Tonto Basin and for that reason it is spoken of locally as Tonto Rim. The Rim drive, exclusive of side excursions, totals just over 180 miles, and is one of the most scenic trips in America. This is wild and beautiful country; big game roam this area, including elk, deer, antelope, turkeys, bears, lions and other animal life.

Northwest of Winslow and approximately a 3½ hour drive, is the Grand Canyon of Arizona, one of nature's greatest wonders. It is 212 miles in length and 13 miles in width, as mysterious as its billion and a half years of age. Rivalling the

Grand Canyon, is beautiful Oak Creek Canyon, also in northern Arizona and a short distance from Winslow, over excellent highways. Members of the National Geographic Society have proclaimed this highway "the most beautiful drive in America."

Truly, the country surrounding Winslow is a wonderland, unsurpassed in historical and scenic value. Make Winslow your headquarters for seeing this "Wonderland". Every comfort is at your command—superior hotel and auto court accommodations, fine municipal swimming pool, good restaurants and stores. In the city of Winslow, a welcome and cordiality typical of the Old West awaits you!!

*... Preface ...*

# Holbrook, Arizona

By **VICTOR PAUL RICHARDS,**  
**Publisher, Editor Holbrook Tribune News**

Holbrook came into being with construction of the railroad through northern Arizona, to become a rail-head for country 100 miles east, south, and north. For 80 years it has been the meeting place for those in the livestock industry, agriculture, lumbering, Indian trading, and in later years, a center for exploration parties interested in oil, natural gas, helium, coal, and uranium. It has grown with its near neighbors in Navajo County—Joseph City, Snowflake, Winslow, Taylor, Woodruff with mutual interests, industries, education, and cultural ties. As good neighbors for three-quarters of a century, they share the attractions of the area, augment it, and add to its enjoyment.

Situated at the confluence of Rio Puerco and Little Colorado Rivers, at an elevation of 5,080 feet, Holbrook is "high and dry" with an average annual rainfall of 10 to 12 inches, a mean average temperature throughout the year of 55 degrees.

With the "wide open spaces" in all directions, pure air, an abundance of pure water, nearly 365 days of sunshine, it has proved to be ideal for persons afflicted with diseases, ranging through respiratory, coronary, arthritic, and tubercular. Thousands have found health, life and rewarding experiences in the land of

clear skies, warm sun, broad expanses of desert lands, unmatched beauty and employment devoid of business pressures so common elsewhere.

Located between the large Navajo-Hopi Indian lands and the colorful Apache Indian reservations, Holbrook offers an ideal location for visits to these peoples, with their age-old customs, picturesque living, and mysterious lore. Ruins of bygone peoples, and evidences of extinct races abound in canyons, and valleys of surrounding areas.

Within easy driving distances are to be found some of the largest unbroken forests in the nation, with attendant lumbering industries; fishing lakes and streams in great number; excellent hunting of deer, elk, turkey, mountain lion and some bear, with attractive water-fowl shooting during winter months.

West of Holbrook, along the Little Colorado valley, attractive farms provide living for an important segment of the population, with expansion of farming and livestock growing in and between neighboring communities.

Modern dairies provide ample products, for the most discriminating.

AERIAL VIEW HOLBROOK, ARIZONA

## ARIZONA RANCHO MOTOR LODGE

Built as The Brunswick in 1883, the main part of this building served as headquarters for Commodore Owens' headquarters while he was sheriff here. It later served the same purpose for the Hashknife Gang, and was their pay station.

The Masonic Temple occupied space here from 1887 until the organization built quarters in 1916.

The Holbrook Argus, northeast Arizona's first newspaper, was printed here at the turn of the century, and Holbrook's first hospital opened here in 1934, under the direction of a later mayor, Dr. J. Minor Park.

This was the U.S.S. Arizona for U.S. Navy V-5 (pre-flight) cadets during the Second World War, and was temporarily used in 1955 and 1956 as temporary barracks for Indian children while Holbrook Dormitory was being built.

Since earliest pioneer days, Holbrook has been the gateway to the world-famous Petrified Forest and Painted Desert, as well as the Indian country. With concentration of more and more branches of federal agencies, it is becoming increasingly attractive to researchers and students of northern Arizona.

As the county seat of Navajo County, it is possible to accomplish many legal and Governmental inquiries with a minimum of time. Sitgreaves National Forest, one of the largest in expanse in the nation, is headquartered in Holbrook. City

has a first class postoffice, the only independent national bank in Arizona, a weekly newspaper, an independent radio station, motion picture theatre, country club, municipal hospital, new well-equipped clinic, small public library, public swimming pool, fraternal lodges, civic and social clubs, accredited high school, many churches, community concert association, and cable television.

Annual attractions include the "Hashknife Stampede" in June put on by the Sheriff's Posse, Horse-racing and rodeo during Navajo County Fair in September.

**VICTOR PAUL RICHARDS**  
**Publisher & Editor**  
**Holbrook Tribune News**  
**Holbrook, Arizona**

New-comers soon learn to appreciate the natural friendliness of Holbrook people. Every assistance is given freely to travelers or new residents in every way possible.

Travelers find a modern bus depot, junction of the Santa Fe and Apache Railroads, an airport, junction of national Highways U.S. 66 and U.S. 260, as well as State Routes 77 and the un-numbered state route

connecting Holbrook with Heber, Young, Mesa, and Phoenix — the shortest route between U. S. Highway 66 and Phoenix.

As travelers' headquarters through the years, Holbrook has 23 motels, many fine eating houses, automobile agencies, garages, service stations, modern stores and travelers' services.

## Numerical Telephone Directory

1960

Containing a list of telephone subscribers arranged in numerical sequence. The information listed below was obtained by a house-to-house canvass and is offered for the convenience of subscribers to the City Directory. The Publishers are very careful in using these numbers but do not assume any responsibility in case of error. Since telephone numbers change rapidly, it is suggested that persons using this list refer to the latest edition of the regular telephone directory issued by the local telephone company in order to verify the information contained herein.

## Numerical Telephone Directory

1960

Containing a list of telephone subscribers arranged in numerical sequence. The information listed below was obtained by a house-to-house canvass and is offered for the convenience of subscribers to the City Directory. The publishers are very careful in using these numbers but do not assume any responsibility in case of error.

Since telephone numbers change rapidly, it is suggested that persons using this list refer to the latest edition of the regular telephone directory issued by the local telephone company in order to verify the information contained herein.
